BIOGRAPHY

Name's T-Ford a.k.a Tito Ford. He is an up and coming 22-year-old rapper artist from York, PA. Life for him was rough growing up. With two parents addicted to drugs. Originally born in Lancaster, PA which he considers as his hometown. Growing up there wasn't so easy. Some of the adversities he had to conquer include: dealing with his parents being in and out of jail. Transferring from three different high schools all within my freshman year. While taking care of younger brothers while trying to take care of myself. At age 16, he discovered a great outlet in rap. As he tries to find a way to express his feelings to the world. He use to show how different he was. While trying to be the best in the business all in the same time. Before his senior year in high school. His parents decided to move to York, PA. There he graduated high school from William Penn Senior High School in June of 2009. A year later he joined the Army in the summer of 2010. While in the Army he learned the concept of discipline and how to be a man. It also made him realize how much he miss things that are important to him. As he puts it, 'I realized the things that are important to me while I was deployed in Afghanistan the summer of 2012 for 9 long months while the Army no longer has the ambition I once had for it, while music does'. His goal is to strive to be the best rapper in the business. He wants to be the first out of my neighborhood to make it in the business and set the standard for all other rappers to come. Making history for his neighborhood will have everyone from there remember me as the one who made it. With this he realize it is going to take many sacrifices and hard work to get where I want to be. You can't substitute those two in order to become successful.

In the world of hip-hop and rap an artist must be able to be innovative, creative, original, ambitious, versatile, and dedicated. These are just a few of the traits that rapper T-Ford has. Driven by the passion to consistently create new music T. Ford has the ability to take his God given talent to any level. With songs ranging from gangster, street, club bangers, to those that are sure to become hip-hop classics there is nothing within music that he can't do.

T-Ford has been perfecting his craft since a very early age. Something that started out as a hobby has now embodied T-Ford into the artist he is today. Not needing any paper, just a beat, mic and booth he spits lyrics and metaphors that you not only feel but can envision. Currently finishing up his debut album. has become an unstoppable force. New school sounds with an old school flavor, taking the game back to its roots, T-Ford is not just a rapper, he is rap.

T-Ford has a warm, edgy feel to his hip hop music feature with some awesome musical arrangements, making a perfect for a hip hop/rap themed TV/Film, and Commercial Projects.

Can you check my mike? Can we disappear get out of site?
Can you get on top? Can you ride the bike?
I'm see you now or later knocking on your door like the neighbors.
Detective came to investigate ya getting naughty by nature.
With your head down and your nice skin.
And your eyes wide and your thighs big go head babygirl and dive in

Verse 2

Trust me babygirl you won't regret it
You'll be happy that you been selected
Number one with no suggestions your body will be well respected.
Two lines we well connected ain't no need for all the stressing.
Just grab a pillow for the resting I'm about to give it to you in a matter of seconds.
Can I wine in dine? Can I take you out ? Can I show you what I'm bout?
T-Ford all in your house merry go we round about.
Side ways up and down she bending low, she touch the ground.
She knows that I'm deep in it now all shit let's get it now.
All shit let's get it now! One more time make a split

Going ham to you call it quits none of these others significant.
